

ControlPad CP48 USB HID

Quick Overview

The ControlPad CP48-USBHID is versatile, 48-key programmable USB Multimedia keyboard.

Your custom macro key definitions are stored within the CP48-USBHID's internal FLASH memory making it a true "PLUG and PLAY" programmable USB keyboard.

Additional Information

Description	Application
	<ul style="list-style-type: none">• Great for any repetitive keystrokes and text.• Saves all your hot-keys and shortcuts.• Increases speed and productivity while reducing typos.• Adds speed and fun to gaming.• Useful for CAD, multimedia, online trading or any other advanced software.• One touch control of email, password and login info.
	<p>Now shipping with 3 Double Keys 3 Extra Single Keys and a Keycap Puller.</p> <p>The ControlPad CP48-USBHID is versatile, 48-key programmable keypad. The keys are relegendable, allowing the user to label them to fit a specific need. The non-volatile, programmable memory allows the keypad to connect to any USB port without installing resident software. The keypad is easy to program using the Windows compatible software provided. Assembled with high quality Cherry MX keyswitches, the keys are durable, yet light and easy to press -- a feature lacking on lesser quality keypads.</p> <ul style="list-style-type: none">• 48 fully programmable keys with relegendable keycaps• 3 double keys, 3 extra single keys, and a keycap puller included• 6' Detachable USB cable with Type A plug included• 2-level programmable, equivalent to 96 keys• 1 Programmable LEDs• Supports USB MultiMedia keys *• Supports F1 through F24• Optional protective latex covers available• Low power consumption• Uses the highest quality key switches rated at 50 million operations

	<ul style="list-style-type: none"> • 1-year warranty • Programmable 																										
Type	Universal, 48-key, fully-programmable																										
Interface	USB 1.0 and Higher																										
Keys	48																										
Color	Black																										
Dimensions	17.5cm x 15.5cm x 3.5cm (6.88" x 6.1" x 1.5")																										
Weight	1.3000																										
OS Supported	Programming software requires Windows OS: - Windows XP / Vista / 7 / 8 / 10. Once programmed, operates on any OS and any PC with USB: - Windows / Mac OS / Linux / DOS / e
